- 1 JUDGE O'CONNELL-DIAZ: Pursuant to the
- 2 direction of the Illinois Commerce Commission, we
- 3 now call Docket No. 01-0423. This is in the matter
- 4 of Commonwealth Edison Company, petition for
- 5 approval of delivery services tariffs and tariff
- 6 revisions and of residential delivery services
- 7 implementation plan and for approval of certain
- 8 other amendments and additions to its rates, terms,
- 9 and conditions.
- 10 May we have the appearances for the
- 11 record, please.
- MR. HANZLIK: Foley and Lardner, by Paul Hanzlik,
- 13 Robert Feldmeier and Cynthia Fonner, 3 First
- 14 National Plaza, Suite 4100, Chicago, Illinois
- 15 60602, appearing for Commonwealth Edison Company.
- 16 MR. MUNSON: Michael Munson on behalf of the
- 17 Building Owners and Managers Association of Chicago
- 18 and Suburban Chicago National Energy Marketers
- 19 Association and Nicor Energy, LLC, 8300 Sears
- 20 Tower, 233 South Wacker Drive, Chicago, Illinois
- 21 60606.
- 22 MR. JOLLY: On behalf of the City of Chicago,

- 1 Ronald D. Jolly, 30 North LaSalle, Suite 900,
- 2 Chicago, Illinois 60602.
- 3 MR. KAMINSKI: Erika Edwards and Mark Kaminski,
- 4 100 West Randolph, Chicago, Illinois 60601,
- 5 Illinois Attorney General's Office appearing on
- 6 behalf of the People of the State of Illinois.
- 7 MR. REVETHIS: Steven G. Revethis and John C.
- 8 Feeley, staff counsel appearing on behalf of the
- 9 Illinois Commerce Commission staff, 160 North
- 10 LaSalle, Chicago, Illinois 60601.
- 11 MR. FEIN: David I. Fein and Christopher J.
- 12 Townsend of the law firm of Piper, Marbury, Rudnick
- 13 and Wolfe, 203 North LaSalle Street, Suite 1800,
- 14 Chicago, Illinois 60601, appearing on behalf of AES
- 15 NewEnergy, Inc., Enron Energy Services, Inc., and
- 16 Blackhawk Energy Services, LLC.
- 17 MS. LUCAS: Julie Lucas appearing on behalf of
- 18 the Citizens Utility Board, 208 South LaSalle,
- 19 Suite 1760, Chicago, Illinois 60604.
- 20 MS. DOSS: Leijuana Doss and David Heaton, Cook
- 21 County State's Attorney's Office, 69 West
- 22 Washington, Suite 700, Chicago, Illinois 60602,

- 1 appearing on behalf of the People of Cook County.
- 2 MR. JARED: Robert P., Jared, J-a-r-e-d, 106
- 3 East 2nd Street, P.O. Box 4350, Davenport, Iowa
- 4 52808, on behalf of MidAmerican Energy Company.
- 5 MR. NEILAN: Paul Neilan, Giordano and Neilan,
- 6 333 North Michigan, Suite 2800, Chicago, Illinois
- 7 60601, appearing on behalf of TrizecHahn Office
- 8 Properties, Inc.
- 9 JUDGE O'CONNELL-DIAZ: Let the record reflect
- 10 that we had put over to today the request for
- 11 confidential treatment that had been filed. And
- 12 our records show that there have been two requests
- 13 for confidential designation, one being the fourth
- 14 motion by Com Ed, as well as a motion by the ARES
- 15 Coalition.
- I think we would like to take those
- 17 first. We do have kind of a laundry list of other
- 18 motions too, as well as any motions in limine or
- 19 anything of that nature that we had set this status
- 20 originally to cover today. So if we could proceed
- 21 with Edison's motion as that was filed -- was filed
- 22 first.

- 1 MS. FONNER: Thank you, your Honor. There are
- 2 seven different sets of documents that are
- 3 contained in this motion. The first is in response
- 4 to staff data request BAL, which was an oral data
- 5 request and they concern Bates range ST 005271
- 6 through 5284.
- 7 These particular documents reflect
- 8 awarded price of contracts versus price paid out.
- 9 As well as terms and conditions of contracts that
- 10 were negotiateed between Com Ed and individual
- 11 vendors. They do contain pricing information,
- 12 other information that would be competitively
- 13 sensitive and would erode Com Ed's bargaining
- 14 position were they publicly available.
- 15 Com Ed is asking that these documents be
- 16 treated as confidential in order to maintain the
- 17 legitimate business interest of Com Ed, as well as
- 18 of the particular contractors involved.
- 19 JUDGE O'CONNELL-DIAZ: Any party have any
- 20 objection to the designation of the documents ST
- 21 0005271 through ST 005284 as mentioned by
- 22 Ms. Fonner?

- 1 MR. JOLLY: The City would object on the same
- 2 grounds that we've objected in the past as to this
- 3 information in the past, that the information would
- 4 not necessarily set a basement, as Com Ed has
- 5 argued, for other potential competitor vendors.
- In fact, it could set a ceiling at which
- 7 they might aim their future proposals to Edison,
- 8 and could in fact reduce Edison's costs on a going
- 9 forward basis. And on that basis, we feel that Com
- 10 Ed has not made a showing that these documents are
- 11 deserving of confidential treatment.
- 12 JUDGE CASEY: Any other objections?
- MS. DOSS: Cook County would join in the
- 14 objection of the City.
- 15 MS. LUCAS: As would CUB.
- 16 JUDGE CASEY: Anybody else?
- 17 MR. KAMINSKI: The AG would join the City's
- 18 objections.
- 19 JUDGE CASEY: The objections are noted.
- 20 Proprietary treatment will be granted. We've
- 21 considered the arguments made by the parties based
- 22 on the type of information that's addressed in the

- 1 motion, the pricing information, we would note that
- 2 there is a potential for erosion of bargaining
- 3 position, and that the information is competitively
- 4 or commercially sensitive. The next set.
- 5 MS. FONNER: The next set responds to staff data
- 6 request BAL 3.02. The documents produced in
- 7 response to this request contain specific
- 8 information of costs of particular equipment, such
- 9 as transformers and the like, which Com Ed has
- 10 purchased in recent past, and contains specific
- 11 line items, item numbers.
- 12 And for the same reasons as previously
- 13 noted, this would erode the bargaining position of
- 14 Com Ed, and for the protection of legitimate
- 15 interests of Com Ed's dealings with future
- 16 contractors we would request that this information
- 17 be maintained as confidential.
- JUDGE CASEY: We will take a look at these
- 19 documents, 3.02. Therein it refers to average
- 20 costs, and not specific costs. We are interested
- 21 in finding out how an average cost -- that
- 22 disclosure of an average cost would impair the

- 1 Company's bargaining position, and that an average
- 2 cost is somehow commercially sensitive.
- 3 MS. FONNER: Because it represents particular
- 4 transformers. The 5291, in terms of not only
- 5 general transformers, but talked specifically about
- 6 the 138 kV to the 212 kV, you are talking about a
- 7 specific type of transformers, not even
- 8 transformers in general. It's the Company's
- 9 position that not even having transformers in
- 10 general as a line item would give vendors an
- 11 ability to gauge what Com Ed would be willing to
- 12 pay for transformer.
- This is even more egregious in that it
- 14 talks about the cost for particular types of
- 15 transformers, that's in response to 5291 and 5292.
- 16 And 5293. As you see later, the request asks for
- 17 all the transformers in 5294 at the the end, lists
- 18 out specific transformers, and the dollars paid.
- 19 All of the these, it's Com Ed's position
- 20 that regardless of whether it's based upon an
- 21 average or specific numbers, the same information
- 22 would erode Com Ed's bargaining position with

- 1 respect to particular vendors. And that an average
- 2 cost would provide some vendors who had perhaps
- 3 given Com Ed the benefit of lower costs in the,
- 4 future would increase those, which would
- 5 necessarily increase the costs of Com Ed's
- 6 distribution projects in the future and would
- 7 necessarily have to be passed on to ratepayers.
- 8 JUDGE CASEY: Any objections?
- 9 MR. JOLLY: The City would have the same
- 10 objection that it made last time, that now that
- 11 Edison has established that public disclosure of
- 12 such information would necessarily increase their
- 13 costs, in fact it could decrease their costs. So
- 14 on that basis, we would object to the confidential
- 15 designation.
- 16 JUDGE CASEY: County, CUB AG agree with the
- 17 objection or concur with the objection?
- 18 MR. KAMINSKI: Yes.
- JUDGE CASEY: Can we assume, then, for the
- 20 remainder of these documents that will be the case
- 21 so we don't have to keep asking?
- MS. LUCAS: Yes.

- 1 JUDGE O'CONNELL-DIAZ: In accordance with our
- 2 previous ruling we find that the information
- 3 contained in the documents ST 005291 through ST
- 4 005297 contain pricing information that is
- 5 commercially sensitive, and may erode the
- 6 bargaining position of the company, and in turn
- 7 cause the company to incur costs which the
- 8 ratepayers would -- so those documents are
- 9 therefore designated as confidential.
- 10 MS. FONNER: The next set is in response to ARES
- 11 data request 8.05. There were a couple actual
- 12 subcomponents within here, Bates range AC 0001188
- 13 through 1189, contain specific information relating
- 14 to current and ongoing distribution projects which
- 15 could, again, be used by vendors, and would erode
- 16 Com Ed's bargaining position in the future in that
- 17 it provides detailed analysis of what Com Ed is
- 18 projected to spend for distribution projects, what
- 19 it has spent to date and what it projects to spend
- 20 in the future.
- 21 JUDGE O'CONNELL-DIAZ: Any objection? Same
- 22 objection?

- 1 MR. JOLLY: Same objection as before.
- JUDGE CASEY: Over the objection, the matters
- 3 will be designated confidential based on their
- 4 commercial sensitivity, as well as potential
- 5 erosion of the bargaining position.
- 6 MS. FONNER: The next set of documents contained
- 7 within ARES data request 8.05 is Bates range AC
- 8 0001196 through 1202. They were produced
- 9 specifically in response to ARES 8.05, but in fact
- 10 they are identical documents to those which were
- 11 produced in response to staff data request BAL,
- 12 data question 3.02, which your Honors have just
- 13 ruled is to be treated as confidential.
- JUDGE CASEY: Mr. Jolly.
- 15 MR. JOLLY: Same objection as last time.
- 16 JUDGE CASEY: Okay. Those documents, 0001196
- 17 through 0001202 will be afforded confidential
- 18 treatment based on the commercial sensitivity as
- 19 well as the potential that it could erode the
- 20 bargaining position of the company.
- 21 MS. FONNER: The next set of documents is in
- 22 response to City of Chicago data request 3.221. It

- 1 contains Bates range COC 0001007 through 1106.
- 2 These documents are individual invoices from
- 3 contractors and contain specific information as to
- 4 prices, terms and conditions that were individually
- 5 negotiateed between Com Ed and the contractors and
- 6 would erode the position of Com Ed in its
- 7 bargaining position as well as preserving the
- 8 legitimate interest of the contractors at issue.
- 9 JUDGE CASEY: Mr. Jolly, do you want to go ahead
- 10 and make your objection?
- 11 MR. JOLLY: It's the same objection.
- 12 JUDGE CASEY: Do you have any specific
- 13 objections?
- MR. JOLLY: No, just for the conceptual issue.
- JUDGE CASEY: Documents COC 0001 007 through COC
- 16 0001106 will be afforded confidential treatment.
- 17 It's clear that these are either contracts or
- 18 specific -- vendor specific agreements of which
- 19 they are commercially sensitive to the company as
- 20 well as that vendor.
- 21 A disclosure of this could in fact erode
- 22 the company's bargaining position and therefore we

- 1 will be afforded confidential treatment.
- 2 MS. FONNER: The next set of documents is in
- 3 response to attorney general data request 2.2A and
- 4 contains Bates range AG 0015010 as well as AG
- 5 0015217 through 15220. This information contains
- 6 specific information with regard to Com Ed's
- 7 dispatchable backup and generation reliability
- 8 pricing experiment.
- 9 It contains not only the number of
- 10 customers on this experiment, but identifies the
- 11 particular customers involved, the type of
- 12 generation installed, pricing for the experiment
- 13 and strategies of Com Ed planners in terms of their
- 14 analysis of the experiment in terms of the past and
- 15 what is expected on a going forward basis.
- I would note that that in order to
- 17 provide the most information, Commonwealth Edison
- 18 has already provided a redacted version of those
- 19 documents to the parties in this case, and has been
- 20 provided to the administrative law judges so that
- 21 you might see how much is redacted in respect to
- 22 those particular pages.

- 1 The remainder of information on
- 2 dispatchable backup and generation has already been
- 3 provided, so it's this limited number of pages.
- 4 MR. KAMINSKI: AG has no objection to the
- 5 redaction of customer names. However, we fail to
- 6 see why the total number that this pricing
- 7 experiment is available to is confidential, or
- 8 whether the prices that are paid to -- or the
- 9 various costs of this experiment are confidential.
- 10 As long as the names of the customers
- 11 are redacted, I feel that the rest of this should
- 12 be available.
- MS. FONNER: Well, Commonwealth Edison has
- 14 already identified the particular feeders involved.
- 15 Identifying the particular number of customers
- 16 involved may lead somebody to ascertain the number
- 17 of customers who are actually involved in that
- 18 experiment.
- 19 In looking at those particular feeders,
- 20 if they can say there are, you know, seven
- 21 customers on that, and looking at the distribution
- 22 capabilities of those customers might very well

- 1 lead someone to be able to ascertain the particular
- 2 identity of the customers involved.
- 3 And again, providing the dollar values
- 4 that customers are receiving is confidential to
- 5 that customer, that is customer specific
- 6 information.
- 7 MS. DOSS: Cook County would join in the
- 8 objection, and just note that this is an
- 9 experiment, and as such, it's for the purposes of
- 10 learning and so if it could be kept confidential, I
- 11 think would be a heightened concern.
- 12 As far as having it being labeled as an
- 13 experiment, so I don't see the harm to the public
- 14 having this made public.
- MS. FONNER: I would note that the Commerce
- 16 Commission excepts the fact that these are treated
- 17 as confidential. And there was in fact a redacted
- 18 portion that was filed with the Commission earlier
- 19 this year. We have actually undertaken and
- 20 provided a broader amount of information than was
- 21 provided with the filing of the billing and pricing
- 22 experiment for purposes of this proceeding.

- 1 But that this is commonly recognize by
- 2 the Commission as something that is sensitive to
- 3 the company as well as to the customers.
- 4 MR. KAMINSKI: In reply to the customer specific
- 5 information regarding the prices, and the payments
- 6 made to customers, if the customers' names are
- 7 removed, I don't see why the numbers cannot remain.
- 8 JUDGE O'CONNELL-DIAZ: Mr. Kaminski, what do you
- 9 have to say in response Ms. Fonner's assertion that
- 10 due to the information with regard to the feeder,
- 11 that it would be apparent who the customers were
- 12 based on the feeder information that is woven
- 13 throughout these documents?
- MR. KAMINSKI: If the feeder information is
- 15 directly indicative of the individual customers,
- 16 then we have no problem with that being redacted.
- 17 MR. FONNER: I would note based upon
- 18 Mr. Kaminski's objection that the information that
- 19 was provided actually describes the assessment of
- 20 what type of feeder, the criteria for the feeder,
- 21 and the number of feeders, so it could potentially
- 22 lead someone to be able to ascertain the particular

- 1 identity of the customers, based upon the redacted
- 2 information that is provided.
- 3 JUDGE CASEY: From a particular standpoint, if
- 4 the feeder information is redacted and the customer
- 5 name information is redacted, we've looked at,
- 6 let's say, page 0015218, take a look at both
- 7 confidential and then the redacted. So what we
- 8 would have left then is the dollar amount.
- 9 MR. KAMINSKI: Yes.
- 10 JUDGE CASEY: What is that going to give you?
- 11 JUDGE O'CONNELL-DIAZ: What does that add to the
- 12 record?
- MR. KAMINSKI: We withdraw the objection.
- MS. DOSS: Cook County would maintain their
- 15 objection.
- JUDGE O'CONNELL-DIAZ: I couldn't hear you, what
- 17 did you say?
- 18 MS. DOSS: We'll still object.
- JUDGE O'CONNELL-DIAZ: With regard to AG 0015010
- 20 through AG 0015220, those documents are $\operatorname{\mathsf{--}}$ we note
- 21 for the record that the AG has withdrawn its
- 22 objection, Cook County still has an objection. We

- 1 would designate these documents as confidential,
- 2 based on customer specific information that are
- 3 contained in those documents.
- 4 MR. FONNER: The next set of documents responds
- 5 to attorney general data request 1.01C and 1.29.
- 6 There are four pages within those. There are
- 7 actually two set groups.
- 8 AG 000379 through 80 contain a
- 9 discussion of compensation to a specific
- 10 Commonwealth Edison employee, in addition to
- 11 respect for the individual's private financial
- 12 matter, as well as the company's privacy and
- 13 protecting the information that pertains to
- 14 individual people, Commonwealth Edison is
- 15 requesting that those particular documents, those
- 16 two pages, be treated as confidential.
- 17 JUDGE CASEY: Mr. Kaminski.
- 18 MR. KAMINSKI: This individual, the payment is
- 19 not a salary, rather it is a one time payment, and
- 20 it is labeled as in recognition of efforts
- 21 regarding the transmission distribution system, so
- 22 I think this is essential to the case, and

- 1 indicative of the effort that went into bringing
- 2 the distribution system up to speed.
- 3 JUDGE CASEY: So we are clear, both the name of
- 4 the employee, as well as the amount of payment to
- 5 the employee have been redacted, or that's -- I
- 6 have a redacted version.
- 7 MR. FONNER: The redacted version has been
- 8 provided to the attorney general, so those that
- 9 signed level 1 of the confidentiality agreement
- 10 have received the entirety. The reason this was
- 11 redacted were because there are other portions of
- 12 this document that were not relevant, so those were
- 13 redacted.
- 14 But the particular two pages at issue
- 15 have been provided to all those that signed the
- 16 protective order at level 1. So Mr. Kaminski has
- 17 this information, is free to use it at hearing with
- 18 the appropriate safeguards that have been
- 19 established.
- JUDGE CASEY: Ms. Doss.
- 21 MS. DOSS: Cook County will object, noting that
- 22 this is a Com Ed officer, it is not simply an

- 1 employee. As such, that information should be made
- 2 public.
- JUDGE CASEY: Any other objections?
- 4 MR. JOLLY: The City would join in the objections
- 5 of the AG.
- 6 MS. LUCAS: As would CUB.
- 7 MR. FONNER: I would just note that whether one
- 8 is an officer or an employee, that one's interest
- 9 in protecting their financial privacy remains the
- 10 same.
- 11 MS. DOSS: I would just object to that.
- MR. KAMINSKI: One last thing I would note, that
- 13 the SEC requires that certain officers of the
- 14 company have to report the compensation levels of
- 15 those officers.
- 16 JUDGE O'CONNELL-DIAZ: Certain officers, which
- 17 ones?
- 18 MR. KAMINSKI: Top five. I don't have specific
- 19 knowledge as to whether this person is one of the
- 20 top five, however that is information.
- 21 JUDGE O'CONNELL-DIAZ: So you are just throwing
- 22 that out there. We are going to redact the

- 1 individual's name from these documents.
- 2 JUDGE CASEY: As well as his title, so the
- 3 specific reference to a specific employee. The
- 4 fact that the dollar amount that someone was paid
- 5 will not be afforded confidential treatment.
- 6 MR. FONNER: Just so I'm clear, your Honor, in
- 7 terms of the name, it lists not only the name, the
- 8 individual's name and title, but talks about the
- 9 previous position where they came from, what their
- 10 efforts were, so the descriptions contained within
- 11 the document would lead to the same ability to be
- 12 able to ascertain the identity of this particular
- 13 individual.
- 14 MS. DOSS: I would object. I don't think -- you
- 15 know, Ms. Fonner continues to have this segue way
- 16 into everyone can determine who this person is.
- 17 This isn't a game of let's put the pieces together
- 18 and find out who this is. This information is
- 19 important, and should be kept public. And the
- 20 ALJ's have ruled that the title and name is
- 21 redacted, then that's sufficient.
- JUDGE CASEY: Well, let's go through it, then.

- 1 This is it what we feel should be redacted or
- 2 stricken. The name and title on the first -- I'm
- 3 looking at document 000379, sentence begins the
- 4 chairman. Delete the person's office and name. Go
- 5 to the fourth line, delete the person's name. Go
- 6 to the whereas paragraph, delete, first line,
- 7 delete the person's name and position, second line
- 8 delete the eighth, ninth and tenth word.
- 9 Next paragraph, first sentence, first
- 10 line, delete the individual's name. Next document,
- 11 0000380, last full paragraph, first sentence,
- 12 delete the individual's name. Last paragraph,
- 13 second sentence, delete the second and third word.
- 14 MR. FONNER: Next with the subset one that
- 15 contained documents AG 000870 and 873. These
- 16 contain a report of discussions between senior
- 17 officers and senior government officials between
- 18 Com Ed, produced in response to chairman -- board
- 19 minutes, and discussions of meetings that occurred
- 20 at Com Ed board meetings.
- 21 These are similar documents to those
- 22 which have been previously produced under a

- 1 confidentiality -- under the protective order in
- 2 that public release of this could very well have a
- 3 chilling effect possible the board of directors at
- 4 Commonwealth Edison.
- 5 Commonwealth Edison is asking that these
- 6 two documents be treated as confidential. The
- 7 documents that were produced are redacted. The
- 8 redactions simply remove information that is not
- 9 relevant to these proceedings. So what the
- 10 administrative law judges has before them has been
- 11 provided to parties in this proceeding that have
- 12 signed level 1 of the protective order.
- 13 JUDGE CASEY: The correspondence is what again,
- 14 where is that coming from? Is that a report back
- 15 to the board?
- 16 MR. FONNER: Yes, your Honor, this reflects
- 17 discussions within the board.
- 18 JUDGE CASEY: Mr. Jolly, Mr. Kaminski.
- 19 MR. KAMINSKI: These are just general
- 20 descriptions of discussions. I fail to see where
- 21 there is any real confidential information being
- 22 revealed here. It says things like the tone of the

- 1 meeting was good. I don't see what people can get
- 2 in the way of confidential information from that.
- 3 MR. FONNER: It discusses particular meetings
- 4 and discussion between, again, Commonwealth Edison
- 5 officers, and government officials.
- 6 JUDGE CASEY: Are there any other objections?
- 7 MS. DOSS: County objects as well.
- 8 JUDGE CASEY: And basis of the objection?
- 9 MS. DOSS: The same as the AG's that these are
- 10 general topics.
- 11 MS. LUCAS: CUB would join in the objection.
- 12 JUDGE CASEY: We are sensitive of the potential
- 13 chilling effect that disclosure of minutes or
- 14 discussions held in board meetings.
- 15 A review of the document does not
- 16 disclose what we would determine a disclosure of
- 17 which would be chilling in future discussions.
- 18 However, there appears, the last sentence on Page
- 19 000873 should be redacted, as that is the
- 20 administrative law judges' determination that that
- 21 would be the only thing within what document that
- 22 could be viewed as potentially chilling.

- 1 MR. FONNER: The final set of documents that was
- 2 in response to City of Chicago data request 1.114
- 3 contains Bates range COC 0001325 through 1336.
- 4 These are documents taken from reports or
- 5 presentations that discuss Commonwealth Edison's
- 6 thread of distributed generation within its service
- 7 territory.
- 8 It reflects the strategic thinking of
- 9 Commonwealth Edison's thinking and its business
- 10 planners and is competitively sensitive and we
- 11 therefore request that these documents be treated
- 12 as confidential and proprietary.
- JUDGE O'CONNELL-DIAZ: Any objection?
- 14 MR. JOLLY: The City would object. On the
- 15 grounds that the documents that are referenced in
- 16 the response appear to be pretty dated. According
- 17 to Com Ed's response, they predate open access, so
- 18 to me I interpret that to mean to be 1997 at the
- 19 earliest, or 1999, possibly. I'm not certain if
- 20 they were referring there to the date of passage of
- 21 the amendment of the Public Utilities Act.
- JUDGE O'CONNELL-DIAZ: Which document are you

- 1 referring to?
- 2 MR. JOLLY: I'm looking at 114B.
- MR. FONNER: Actually they all post date.
- 4 MR. JOLLY: I misread that. Strike that.
- 5 JUDGE O'CONNELL-DIAZ: So now you are going to
- 6 withdraw your objection?
- 7 MR. JOLLY: Actually, I might. And I will.
- 8 JUDGE CASEY: Anybody else want to make an
- 9 objection and then withdraw it? There will be no
- 10 objection, those documents will be afforded
- 11 confidential and proprietary treatment.
- 12 MR. FONNER: And that concludes Commonwealth
- 13 Edison's fourth motion for treatment of documents
- 14 as confidential or confidential and proprietary.
- 15 JUDGE CASEY: Mr. Fein.
- 16 MR. FEIN: Thank you, your Honors. The ARES
- 17 Coalition filed a motion for confidential treatment
- 18 that addresses two sets of information.
- 19 The first set sought specific
- 20 information regarding the impact of the Company's
- 21 proposal upon the specific individual customers of
- 22 AES New Energy. The information is competitively

- 1 sensitive, and could be use to the detriment of AES
- 2 New Energy in the market. And it's my understand
- 3 that, at least from the Company, there is no
- 4 objection to the treatment of the ARES Coalition's
- 5 response to Com Ed data request 2.3066.
- 6 The second has to do with work papers
- 7 that were relied upon by members of the ARES
- 8 coalition in produceing customer impact analyses
- 9 that were contained in their testimony in this
- 10 proceeding. The ARES Coalition and the Company
- 11 have entered into a protective agreement for that
- 12 information. The information has been provided to
- 13 the Company, already, and this information is
- 14 specific customers' information for both customers
- 15 of AES New Energy, and Enron.
- 16 MR. FONNER: And I would agree with Mr. Fein's
- 17 statement that Commonwealth Edison Company has no
- 18 objection to the treatment of these documents as
- 19 confidential.
- 20 JUDGE CASEY: Any objection? There being no
- 21 objection, the documents set forth in the ARES
- 22 Coalition's first motion for treatment of documents

- 1 as confidential or confidential and proprietary
- 2 will be afforded confidential treatment.
- 3 JUDGE O'CONNELL-DIAZ: With regard to the motion
- 4 to compel filed by the AES New Energy, or the ARES
- 5 Coalition, we don't have a response from the
- 6 company. What is the status of that?
- 7 MR. FONNER: We had not prepared a written
- 8 response, your Honor. With respect to -- I would
- 9 note first of all that Commonwealth Edison provided
- 10 the responses to 18 of the data requests on the
- 11 16th of October, two more on the 18th of October.
- 12 Last evening the Company responded to
- 13 and sent out by priority mail, that should be
- 14 arriving at Mr. Fein's office this morning, sent
- 15 out responses to all but 3 of the requests. Two of
- 16 the three remaining requests ask for transcripts,
- 17 press releases, et cetera. These documents are no t
- 18 kept in the media relations office at Commonwealth
- 19 Edison, are not maintained.
- 20 The only thing the Company would be able
- 21 to do would be to conduct a public search in the
- 22 public domain which the ARES Coalition could

- 1 accomplish just as easily. So there would not be
- 2 any documents forthcoming with respect to two of
- 3 those three data requests.
- 4 The remaining data request and narrative
- 5 responses to those two as well as the third, will
- 6 be provided today.
- 7 MR. FEIN: Can I respond? As you can see from
- 8 the motion to compel, the ARES Coalition timely
- 9 filed these data requests. The ARES Coalition's
- 10 ninth set of data requests sought highly relevant
- 11 information, the type of information that is
- 12 requested in the usual course of Commission
- 13 practice.
- 14 The problem here is a problem of the
- 15 Company's own making. They have refused to
- 16 respond. The vast majority of the outstanding
- 17 responses that I still have not seen as we sit here
- 18 today relate to their rebuttal testimony, which was
- 19 filed on September 20th. This was testimony filed
- 20 after an extension was sought due to the events of
- 21 September 11th.
- 22 Much of the outstanding responses deal

- 1 with some witnesses who had not previously
- 2 testified. Therefore, the information sought could
- 3 not have been requested any earlier than it was.
- 4 At a status hearing regarding that motion for an
- 5 extension of time to file, the Company refused to
- 6 identify who the witnesses were that were going to
- 7 be testifying. Again, a problem of their own
- 8 making.
- 9 When we initially contacted the Company
- 10 to inquire as to the status of these responses, it
- 11 was clear that there was no knowledge on the part
- 12 of counsel for when the responses would be
- 13 forthcoming, what the status of them were. We were
- 14 promised that we would receive some of the
- 15 responses yesterday, we were promised that we would
- 16 receive them electronically so that we could
- 17 expedite the review, that didn't occur. Again, the
- 18 company failed to meet its own deadline that it
- 19 imposed upon itself.
- 20 Obviously I haven't had a chance to
- 21 review them as we sit here today. I don't even
- 22 know if they are responsive, whether there is

- 1 objections. The information asked for, if you look
- 2 at the attachment to our motion, I mean some of the
- 3 information asks what do you mean by a certain
- 4 phrase.
- 5 The company has taken over 28 days to
- 6 provide that information, pretty basic information
- 7 that I think highlights the manner with which the
- 8 Company has handled discovery in this case. This
- 9 is the third type of motion we've had to file.
- 10 I think Examiner Casey will recall a
- 11 similar situation that occurred in Docket
- 12 No. 00-0361. The Company's decommissioning
- 13 proceeding where a host of discovery was dumped on
- 14 the parties on the eve of hearings and then we are
- 15 supposed to be prepared to go forward with cross
- 16 examination on that very day or the following day.
- 17 That completely prejudices the parties.
- The two witnesses who are scheduled to
- 19 testify tomorrow for the company, Ms. Strobel and
- 20 Mr. Helwig, testify at length about the
- 21 reasonableness of the investments and distribution
- 22 reliability, distribution capital improvements,

- 1 incremental expenses borne by shareholders, all of
- 2 which is highly relevant information that we have a
- 3 right to conduct discovery upon. And those are the
- 4 ones that are outstanding.
- 5 So I think that it should be clear to
- 6 all the parties and clear to the judges, the manner
- 7 in which discovery has been conducted in this case,
- 8 and we would ask that either two manners of relief,
- 9 one either the testimony be striken that addresses
- 10 these issues, or that the ARES Coalition be
- 11 provided with the opportunity to potentially recall
- 12 these witnesses at a time convenient to the ARES
- 13 Coalition after we've had an opportunity to review
- 14 the responses to discovery.
- 15 Additionally, Ms. Fonner's
- 16 representation this morning about the response that
- 17 it will not be forthcoming --
- 18 MS. FONNER: That's a mischaracterization. I did
- 19 not say that responses will not be forthcoming.
- 20 MR. FEIN: Well, if I understand, you indicated
- 21 that our request 9.8 and 9.13, which requested
- 22 copies of documents including, but not limited to,

- 1 transcripts, press clippings, videotapes, speeches,
- 2 testimony both by Ms. Strobel and Mr. Helwig
- 3 regarding issues to the Company's distribution
- 4 system are not kept in the normal course.
- 5 I would note for the record that a
- 6 similar, if not identical question was posed early
- 7 in this proceeding, with respect to statements by
- 8 Mr. Rowe, documents were provided in response to
- 9 that request. I note that the Company has provided
- 10 responses to City of Chicago data requests, in
- 11 particular City of Chicago data request 2.118 and
- 12 182 that purport to be various documents that are
- 13 kept by the Company's media relations department.
- I would note that anyone might be able
- 15 to search a website and find releases that come out
- 16 of their media relations department. We simply
- 17 requested statements to test some of the statements
- 18 that the witnesses have placed in their testimony
- 19 that they seek to place in the record in this
- 20 proceeding, completely relevant and highly
- 21 probative information with respect to many of the
- 22 issues in this proceeding.

- 1 JUDGE CASEY: Ms. Fonner.
- 2 MS. FONNER: The company has never refused to
- 3 provide responses to anything. In fact, as I noted
- 4 earlier, the company provided 20 responses to these
- 5 data requests by October 18th, and has be en
- 6 diligently working to provide responses to all
- 7 requests.
- 8 I would also note that with respect to
- 9 this particular motion, this motion was filed
- 10 before the data requests had even come due.
- 11 Commonwealth Edison didn't receive these data
- 12 requests until after the close of business on
- 13 October the 2nd, and were working diligently to
- 14 provide those data requests responses to Mr. Fein.
- 15 Narrative responses will be provided to all.
- And with respect to 9.8 and 9.13,
- 17 Mr. Fein's point that one could easily search a
- 18 website is indicative of the fact that Mr. Fein and
- 19 the ARES Coalition could do that just as easily as
- 20 anybody at the Company. The fact is that these are
- 21 not maintained in the media relations department
- 22 for these particular individuals.

- 1 Whether or not documents are collected
- 2 and retained with respect to Mr. Rowe is not
- 3 relevant as to the fact of they do not have
- 4 documents with respect to the two individuals for
- 5 which Mr. Fein sought documents. So we have
- 6 responded to all but three. Those narrative
- 7 responses to the remaining three will be
- 8 forthcoming, and they will be provided today.
- 9 MR. FEIN: If I could briefly respond. If it's
- 10 the Company's position that they would object to
- 11 that data request because the ARES Coalition can
- 12 find that information itself, then it shouldn't
- 13 take 28, 29, 30 days to get that objection.
- 14 If we are provided with a timely
- 15 objection, as the data request requested, that we
- 16 be immediately notified if there is an objection,
- 17 so we can resolve it, which is I understand the
- 18 intent of the rules of practice to be, to try to
- 19 resolve these matters, that would be appropriate.
- 20 But unfortunately the Company waits until the 30th
- 21 day when they come due.
- 22 Any efforts at good faith responses in

- 1 14 days, I think have been obvious that there
- 2 hasn't been that commitment. And the Company has
- 3 taken the position that no responses are due until
- 4 28 days expire. And I think Ms. Fonner's response
- 5 certainly highlighted that. If they have an
- 6 objection to certain of our data requests, it
- 7 should not take 28, 29, 30 days on the eve of
- 8 hearings to receive them.
- 9 MS. FONNER: If I might respond briefly to
- 10 Mr. Fein's last comment. Commonwealth Edison
- 11 wasn't objecting to the requests 9.8 and 9.13, it
- 12 was simply indicating that after a complete and
- 13 thorough search, these documents are not
- 14 maintained.
- JUDGE CASEY: That is going to be your response?
- MS. FONNER: Yes, that's correct. And there is
- 17 in fact nothing left to compel. They will have
- 18 narrative responses for those remaining three, 9.21
- 19 will have a substantive response that they will
- 20 have forthcoming shortly by the close of business
- 21 today. There is simply nothing left at issue.
- JUDGE CASEY: I think the point that Mr. Fein is

- 1 trying to get at, if you don't ordinarily keep that
- 2 documentation, how long does it take to figure that
- 3 out. We shouldn't be waiting 30 days to get that
- 4 answer, I think that's the point.
- 5 MR. FEIN: That's the point on those. This is
- 6 the first we've heard of that, obviously. I guess
- 7 I would like something clear for the record, is it
- 8 the Company's position that the office of Ms.
- 9 Strobel and the offices of Mr. Helwig do not keep
- 10 records of speeches or presentations or articles
- 11 that they write or are quoted in?
- 12 MS. FONNER: My information indicates that those
- 13 particular requests that you made for press
- 14 releases, transcript, et cetera, are not kept in
- 15 the media relations office, and that is something
- 16 that where these would be, the clearinghouse, if
- 17 you will.
- 18 MR. FEIN: Are they kept anywhere at the Company,
- 19 if not in the media relations department?
- 20 MS. FONNER: Well, presentations with respect to
- 21 Ms. Strobel have been previously produced in
- 22 response to another data request.

- 1 JUDGE O'CONNELL-DIAZ: Given the fact based on
- 2 Mr. Fein's representation that he has not had an
- 3 opportunity to review these responses that
- 4 Ms. Fonner has suggested the Company has responded
- 5 to the ARES Coalition with, we would like to afford
- 6 Mr. Fein that opportunity to review those documents
- 7 that I guess were sent yesterday or whenever they
- 8 were sent.
- And with the caveat that if need be,
- 10 that any of the witnesses that are scheduled to
- 11 testify tomorrow would be available at some point
- 12 in time later in our schedule if the ARES Coalition
- 13 has any questions that, due to the lateness of
- 14 receiving that information, they were not able to
- 15 prepare for their cross tomorrow. So that will be
- 16 up to
- 17 Mr. Fein to advise us of that, based on his review
- 18 the documents which he has not seen yesterday.
- 19 MR. HANZLIK: Just so the record is clear, it has
- 20 not been demonstrated that any of these are late
- 21 they are being filed within the time periods of the
- 22 Commission's rule, and so I have some concern about

- 1 characterizing our responses as being late.
- JUDGE O'CONNELL-DIAZ: Mr. Hanzlik, I'm just
- 3 going to stop you right there, because we do note
- 4 that tomorrow is the hearing and these two
- 5 witnesses, Mr. Helwig, and Ms. Strobel are going to
- 6 testify, and I think it's only fair that while you
- 7 are still not late, but they need this information
- 8 to be able to do whatever kind of cross they choose
- 9 to do. And we will afford them that opportunity.
- 10 The next motion is Com Ed's motion to
- 11 compel the data responses from NEMA. Mr. Munson,
- 12 we don't have any response from you with regard to
- 13 that. Have you filed a response?
- MR. MUNSON: Yes, actually. And I ask that this
- 15 be brought up tomorrow as a result there is --
- 16 Mr. Goodman filed responses or a response to this
- 17 motion that should be at Ms. Fonner's office this
- 18 morning. I was unable to review it as my e-mail
- 19 system was down, and then it was not faxed prior to
- 20 this hearing. And I have not had a chance to
- 21 review the response.
- 22 My understanding is we had until noon

- 1 tomorrow to provide responses to Commonwealth
- 2 Edison with regard to these data requests, and that
- 3 was the time period that I was going on.
- JUDGE CASEY: Mr. Munson, I guess I'm not clear.
- 5 Someone filed a response or is preparing a response
- 6 to this motion?
- 7 MR. MUNSON: Yes, Mr. Goodman is an attorney, and
- 8 has taken upon himself to draft a response to this
- 9 motion, and that is what I intend on filing in this
- 10 case on his behalf.
- JUDGE O'CONNELL-DIAZ: But you just stated that
- 12 you filed this already, is it filed?
- MR. MUNSON: He sent it to my office to review
- 14 and sent it to Commonwealth Edison.
- JUDGE O'CONNELL-DIAZ: Is he an attorney of
- 16 record in this case?
- MR. MUNSON: He's on the service list, I'm not
- 18 sure the distinction of attorney of record.
- 19 JUDGE O'CONNELL-DIAZ: I think you need to file
- 20 the response.
- 21 MR. MUNSON: I intend on filing the response.
- JUDGE O'CONNELL-DIAZ: So you haven't filed

- 1 anything yet?
- 2 MR. MUNSON: No. And it was my understanding
- 3 that I had until noon tomorrow to do so.
- 4 JUDGE O'CONNELL-DIAZ: When is Mr. Goodman
- 5 scheduled to testify?
- 6 MR. MUNSON: He was scheduled on Thursday the 8th
- 7 at the status hearing last that we agreed upon, and
- 8 then the schedule was rearranged a bit to
- 9 accommodate some witnesses, and then he was set for
- 10 and is currently set for the 6th.
- 11 MS. FONNER: He's testifying by telephone, which
- 12 further complicates these issues.
- JUDGE O'CONNELL-DIAZ: Mr. Munson, are you aware
- 14 of what is going to be filed, responses to the data
- 15 requests or a general response to the motion to
- 16 compel?
- MR. MUNSON: I believe it's a response to the
- 18 motion to compel. It's NEMA's position that the
- 19 responses that were provided to Commonwealth Edison
- 20 are responsive and therefore there is objections to
- 21 the motion to compel.
- JUDGE CASEY: If that's the case, if that's what

- 1 is going to be filed, then we are going to need to
- 2 see the responses, as well as the data requests
- 3 themselves.
- 4 MS. FONNER: The data requests and responses
- 5 themselves were filed as part of the errata to
- 6 Commonwealth's motion. But those are what -- that
- 7 was after the supplemental, those are the
- 8 supplemental responses from NEMA.
- 9 JUDGE O'CONNELL-DIAZ: Mr. Munson, could
- 10 whatever is going to be filed be filed by 4:00
- 11 o'clock today?
- MR. MUNSON: Absolutely. Yes, I just would note
- 13 for the record that I received this motion to
- 14 compel on Monday afternoon and it is now Wednesday
- 15 morning. We just ask before you make a ruling on
- 16 this, that you afford us an opportunity to respond.
- 17 And it seems that you've done that by allowing us
- 18 until 4:00 o'clock.
- JUDGE CASEY: We will reserve ruling on Com Ed's
- 20 motion to compel to National Energy Marketers
- 21 Association.
- JUDGE O'CONNELL-DIAZ: The next motion will be

- 1 Com Ed's motion to strike portions of the rebuttal
- 2 testimony of Dr. O'Connor and Richard Spilky.
- 3 MR. FELDMEIER: Com Ed has moved to strike
- 4 certain portions of the testimony submitted by
- 5 Dr. O'Connor and Mr. Spilky that deal with a notice
- 6 that was sent to the Commissioners by, let's see if
- 7 we can get the name right here, Dominion Retail,
- 8 Inc., regarding Dominion's reasons for withdrawal
- 9 from this case.
- 10 We have moved to strike Lines 20 through
- 11 33 of that testimony. And we have advanced a
- 12 number of reasons in the paper that we filed. But
- 13 I think they come down to pretty basic evidentiary
- 14 points. We've moved to strike because both of the
- 15 witnesses here have not indicated in their
- 16 testimony that they have the proper foundation to
- 17 testify about affairs relating to Dominion.
- 18 And for related reasons, when they do
- 19 testify about Dominion, their testimony is based on
- 20 something that they just read or heard from others,
- 21 it's hearsay, it's an out of word statement that
- 22 they are repeating for the truth of the matter

- 1 asserted.
- 2 The overlay behind this is beyond the
- 3 sort of law school evidentiary points is the
- 4 context in which this is raised. Dominion was a
- 5 member of the ARES Coalition, it sent this notice
- 6 to the Commissioners, and now its witnesses are
- 7 pointing to the notice as evidence. And we think
- 8 under those circumstances, this is improper, this
- 9 is an improper way of creating evidence,
- 10 essentially, to put in the record.
- If I could refer to the law that we've
- 12 cited in our brief, the law in Illinois is that
- 13 witnesses can testify only concerning matters that
- 14 fall within the scope of their personal knowledge.
- 15 And the party offering a witness has the burden of
- 16 showing that the witness they've put on the stand
- 17 does have personal knowledge of the subject matter
- 18 that the witness is testifying about.
- 19 Cited the Supreme Court case in support
- 20 of that proposition, People v. Ennis 139 Illinois
- 21 2d, 264. It's a bedrock of our evidentiary system.
- 22 The testimony that has been submitted in this case

- 1 doesn't indicate that there is personal knowledge
- 2 here.
- Again, the testimony refers to why
- 4 Dominion is withdrawing from this case, and the two
- 5 witnesses are not related to Dominion. They are
- 6 both either officers or employees, as we've
- 7 indicated in our papers, of AES New Energy, so they
- 8 can't have foundation to testify about Dominion's
- 9 affairs and foundation for such testimony is not in
- 10 the testimony that's been presented.
- 11 For related reasons, when these
- 12 individuals do testify about Dominion it's hearsay.
- 13 Hearsay in Illinois is an out of court statement
- 14 stated in court for the truth of the matter
- 15 asserted, and that's what's been done here.
- 16 Basically these witnesses are just pointing to
- 17 something that somebody else said. That's the
- 18 classic definition of hearsay.
- 19 And this isn't a technical objection we
- 20 are raising, but a fundamental right of Com Ed is
- 21 being deprived here, because the key point behind
- 22 this is we can't cross examine on these statements.

- 1 Nobody here is from Dominion, we can't probe the
- 2 voracity of these statements because the person
- 3 making the statement won't be in the courtroom. So
- 4 our right to cross examine is being denied.
- 5 Again, the circumstances in which this
- 6 has arisen is this is a former member of the ARES
- 7 Coalition, they have created this notice that the y
- 8 sent to the Commissioners. They basically created
- 9 evidence now that their witnesses are pointing to,
- 10 and that's an additional reason why this testimony
- 11 should be stricken.
- 12 MR. FEIN: May I respond?
- JUDGE O'CONNELL-DIAZ: We are very interested in
- 14 your response.
- MR. FEIN: For three separate reasons, we think
- 16 the Company's motion should be denied. First, the
- 17 type of evidence that the Company would like to
- 18 exclude is the type of evidence that an expert
- 19 would rely upon for his testimony or her testimony.
- The evidence that is being relied upon
- 21 by Dr. O'Connor and Mr. Spilky is certainly allowed
- 22 by the Commission's rules, and under the rules of

- 1 evidence. It's the type evidence that a prudent
- 2 person and an expert would rely upon to draw these
- 3 two conclusions with which they testify about. The
- 4 reason that Dominion withdrew from the proceeding,
- 5 and the effect that the Company's actions are
- 6 having on the development of the competitive market
- 7 in this state, and that's what they testify about
- 8 in those lines of their testimony.
- 9 This type of evidence is allowed under
- 10 the Commission's rules of practice, as we noted at
- 11 Page 3 of our response. This type of evidence is
- 12 allowed under Federal Rule of Evidence 703, as we
- 13 mentioned at Page 4 of our respond.
- 14 Second, I would agree with Mr. Feldmeier
- 15 that again this is a basic evidentiary point, and
- 16 that is that while even if the Commission were to
- 17 find that Dr. O'Connor and Mr. Spilky did not
- 18 reasonably rely possible this letter, which I would
- 19 note for the record was not only circulated to the
- 20 parties, but filed along as an attachment to a
- 21 notice formally in this proceeding, that it's
- 22 admissible.

- 1 It's admissible under Federal Rule of
- 2 Evidence 803 Sub 3, and that is this out of court
- 3 statement shows the state of mind, motive, or
- 4 intent of the declarant, declarant being Dominion
- 5 on why they withdrew from this proceeding. Finely
- 6 --
- 7 JUDGE O'CONNELL-DIAZ: Mr. Fein, the letter that
- 8 you are talking about, that was individually mailed
- 9 to the separate Commissioners; isn't that correct?
- 10 MR. FEIN: It was individually mailed to the
- 11 Commissioners, it was served on every party to this
- 12 case, and then was filed as an attachment to a
- 13 notice that was formally filed with the ALJ.
- JUDGE O'CONNELL-DIAZ: Yeah, after the fact,
- 15 correct? And wouldn't that be an ex parte
- 16 communication and therefore improper?
- 17 MR. FEIN: We belief that it was served upon all
- 18 the parties to the case, the parties were on
- 19 notice.
- 20 And finally, this motion is premature.
- 21 The witnesses haven't testified yet. Mr. Feldmeier
- 22 does not know what their personal knowledge is.

- 1 The purpose of cross examination is to find out
- 2 what a witness' personal knowledge is about
- 3 assertions in their testimony, just like any other
- 4 witness to a proceeding. Just like assertions from
- 5 their witnesses about certain reasonableness of
- 6 cost, certain other items. That's what the purpose
- 7 of cross examination is, to test a witness'
- 8 knowledge that goes to the weight of evidence
- 9 that's in their testimony.
- 10 We think that it's obviously clear why
- 11 the Company doesn't want these witnesses to talk
- 12 about what they've mentioned in their testimony.
- 13 Obviously they take issue with the testimony that
- 14 has been filed by Dr. O'Connor and Mr. Spilky on
- 15 these matters, and we believe that their motion --
- 16 they have provided an insufficient basis by which
- 17 to strike these portions of the testimony and ask
- 18 that you deny their motion.
- 19 MR. FELDMEIER: I would like to respond to the
- 20 three points that Mr. Fein raised. First, he said
- 21 that this is expert testimony and it gets in
- 22 because this is the type of thing that experts rely

- 1 upon. If you take a look at this testimony, this
- 2 isn't testimony, this is recitation of facts. This
- 3 is pointing to this notice and saying listen to
- 4 this for the truth of the matter asserted. It's
- 5 not the basis of an opinion, I think that's clear
- 6 from the way this is laid out.
- 7 Second, Mr. Fein also in his papers and
- 8 in his statements pointed to and referred to
- 9 Section 2610B, I don't know if he referred to that
- 10 in his argument, but it's in his papers. And that
- 11 section states that it relys on Section 1040 of the
- 12 Administrative Procedure Act, which says in
- 13 administrative proceedings things can come in if
- 14 they are the type of thing that reasonably prudent
- 15 people would rely on in the course of their
- 16 affairs.
- 17 An important point with that though is,
- 18 and it's a point that I'm going to talk a lot about
- 19 with respect to the motion to strike Mr. Schlissel,
- 20 is that that section doesn't allow the wholesale
- 21 admission of hearsay. That's a point that has been
- 22 addressed by the courts, Murelli v. Ward 734,

- 1 Illinois 2d, 87. Basically came right out and
- 2 said, hearsay is not a court statement offered to
- 3 prove the truth of the matter asserted. Such
- 4 evidence is inadmissible in administrative
- 5 proceedings unless it falls within one of the
- 6 recognized exceptions to the hearsay rule.
- 7 He has pointed to one of those, and I'll
- 8 talk about that in a minute. But the hearsay rule
- 9 is still in force in administrative proceedings.
- 10 And that's what we show here, South Limited v.
- 11 Pollution Control Board 656, Illinois 2d, 51,
- 12 stating general hearsay evidence is not admissible
- 13 in administrative proceeding. Citing several other
- 14 earlier cases.
- So just to say that this is the type of
- 16 thing that people rely on, and it gets in because
- 17 this an administrative hearing, that is not
- 18 correct, hearsay is still barred.
- 19 Mr. Fein referred to section 803-3 or
- 20 Subsection 3 of the Federal Rules of Evidence, the
- 21 state of mind exception. I would like to read that
- 22 briefly. It says a statement of the declarants

- 1 then existing state of mind, emotions, sensations
- 2 or physical condition, such as a mental feeling of
- 3 pain or bodily health is a subject of a hearsay
- 4 exception.
- 5 This is an exception that applies to
- 6 individuals, primarily in criminal cases, when a
- 7 coconspirator or an individual talks about intent.
- 8 When things like intent or motive are at issue in
- 9 the case. It doesn't apply to corporations.
- 10 Corporations don't have bodily feelings, they don't
- 11 have what's referred to here in the rule as
- 12 emotions. And for the same reason they don't have
- 13 intent or design.
- 14 This is something that a specific
- 15 objection or exception that applies in the case of
- 16 individual thoughts and feelings and it's not
- 17 applicable of Dominion statements which are the
- 18 subject here.
- 19 Also I would point out in the case
- 20 they've cited, People v. Berry, in their papers as
- 21 indicative of this exception being adopted in
- 22 Illinois law, in referring to this type of

- 1 statement, the Court said that there must be
- 2 consideration of the likelihood of deliberate or
- 3 conscious misrepresentation, and that must be, this
- 4 is kind of a funny word, negative, not a word I
- 5 would use, but that's the word in the case.
- 6 Now, that's not negative here, that's
- 7 exactly what we have here because they have created
- 8 this piece of evidence recently and know they are
- 9 pointing to it. So in this situation, we would say
- 10 that the exception doesn't apply.
- 11 And finally, they have indicated that
- 12 the point is -- our motion is premature, that we
- 13 don't know what the scope of knowledge will be for
- 14 these individuals. Our position will be that in
- 15 preparing this direct testimony when counsel has
- 16 the ability to form testimony, written testimony
- 17 with witnesses, the foundation has to be there.
- 18 That's why we have this motion to strike, that was
- 19 their burden coming in. They failed to meet that
- 20 burden, they don't get to put that witness on the
- 21 stand and supplement.
- 22 And here I think it's more than a

- 1 technical issue of supplementation, these are AES
- 2 New Energy personnel, this barrier can't be crossed
- 3 their knowledge of Dominion's affairs is by
- 4 definition hearsay. So we would continue to assert
- 5 our motion and move to strike these portions of
- 6 the testimony.
- 7 MS. DOSS: Your Honor, Cook County would object
- 8 and ask that the reference to Mr. Schlissel's
- 9 testimony and the reason that Com Ed will agree
- 10 that the testimony should be stricken, should be
- 11 stricken from the argument, because that motion is
- 12 not before your Honor at this particular time, and
- 13 we have not responded -- and have no opportunity to
- 14 respond.
- 15 And I would make the objection at the
- 16 time he said it --
- 17 JUDGE CASEY: He was on a role.
- 18 MS. DOSS: Exactly.
- 19 JUDGE CASEY: Well, the motion to strike
- 20 particular portions of his argument will be denied.
- 21 I think we are well equipped to determine what we
- 22 are going to consider and what we won't and what is

- 1 proper and what is not.
- 2 Mr. Fein, do you have any final
- 3 response?
- 4 MR. FEIN: Just a couple brief points. Contrary
- 5 to Mr. Feldmeier's representation, the exception
- 6 under Federal Rule of Evidence 803 Subsequent 3
- 7 does apply equally in civil as in criminal cases,
- 8 as the case cited in our papers, as he refers to
- 9 them, indicates.
- 10 And I note that counsel cited references
- 11 to a couple of other cases that I did not see
- 12 contained in his motion. And obviously we have not
- 13 had an opportunity to respond to these additional
- 14 cases that he cited in his response to my argument
- 15 here today. And again, we believe that the motion
- 16 should be denied.
- 17 JUDGE CASEY: First and foremost, the
- 18 correspondence sent by the Dominion representative
- 19 is troubling. There was an entity represented by
- 20 counsel in a proceeding before us, to send
- 21 correspondence directly to the Commissioners, we
- 22 believe is ex parte and improper.

- 1 Having said that, we do not think it's
- 2 appropriate for the remaining members of the ARES
- 3 Coalition to boot strap or to use that
- 4 inappropriate correspondence in their rebuttal
- 5 testimony. We've considered the arguments of the
- 6 parties, both the movant and the respondent, and
- 7 conclude that the testimony, Lines 20 through 33,
- 8 should be stricken.
- 9 JUDGE O'CONNELL-DIAZ: The next order of
- 10 business is Com Ed's motion to strike the testimony
- 11 of Mr. Schlissel. And we will hear argument on
- 12 that motion today, however, we will most likely
- 13 take it under advisement.
- MR. FELDMEIER: Your Honors, if I may, Com Ed has
- 15 moved to strike the testimony of Mr. Schlissel that
- 16 was filed on August 23rd of 2001. His testimony
- 17 has been submitted by the People of Illinois, CUB,
- 18 the City of Chicago and Cook County.
- 19 Mr. Schlissel in his testimony offers
- 20 opinion testimony regarding costs that he believes
- 21 should not be allowed in base rates in this
- 22 proceeding. However, his opinion testimony in this

- 1 case is not based on factual analysis, it's based
- 2 largely on reports that he has quoted from at
- 3 length in his testimony, basically the opinions and
- 4 observations of others.
- 5 In particular, he quotes at length in
- 6 the testimony to two specific reports, a report
- 7 prepared buy Liberty -- or a number of reports
- 8 prepared by the Liberty Consulting Group concerning
- 9 Liberty's investigation of aspects of Com Ed's
- 10 transmission and distribution systems from 1992 to
- 11 1999.
- 12 He also quotes at length from pages of
- 13 -- he also had pages of testimony that quote at
- 14 length from summaries of a report prepared by
- 15 Vantage Consulting concerning it's investigation of
- 16 outages that occurred on Com Ed's system from July
- 17 30, 1999 to August 31st, '99. So the just of this
- 18 is we have expert opinion testimony here that is
- 19 basically a recitation of opinion reports and
- 20 reports prepared by others.
- 21 And of course the risk here as we are
- 22 going to go into in a moment for Com Ed is that Com

- 1 Ed cannot properly cross examine with respect to
- 2 those reports. The drafters of those reports will
- 3 not be in the courtroom, Com Ed will have no way of
- 4 probing into the voracity or the context that went
- 5 into those reports, will not be able to properly
- 6 cross examine. And for that core reason, in
- 7 addition to other reasons, the testimony that we've
- 8 moved to strike in Mr. Schlissel's testimony should
- 9 be stricken.
- 10 We've raised four reasons for striking
- 11 this testimony in the motion that we've filed.
- 12 First, as I alluded to a moment ago, the Schlissel
- 13 testimony contains irrelevant and prejudicial
- 14 hearsay testimony that should be stricken, page
- 15 upon page of of such testimony.
- 16 Second, the documents relied upon by
- 17 Mr. Schlissel do not apply to the legal standard at
- 18 issue in this case, so simply allowing those
- 19 documents in evidence, when they were based on a
- 20 different standard, would be -- is incorrect. And
- 21 again, as we are going to refer to, that reasoning
- 22 has been relied upon by hearing examiners in the

- 1 past with respect to Mr. Schlissel's testimony and
- 2 by the Commission in striking his testimony that
- 3 was basically written in the same way that the
- 4 testimony that is at issue in our motion was
- 5 prepared.
- 6 We've also moved to strike the testimony
- 7 because it applies a hindsight standard, which is
- 8 not the applicable correct standard to apply in a
- 9 case like this, and because it contains these out
- 10 of court statements that do not address the test
- 11 year that is at issue here, and because of that the
- 12 testimony is irrelevant.
- 13 Striking Mr. Schlissel's testimony is
- 14 consistent with a prior Commission precedent,
- 15 including a commission precedent involving
- 16 Schlissel's testimony itself. Docket 90-038 In Re:
- 17 Edison, a December 12th, 1990 opinion of the
- 18 Commission, this case did not involve Mr.
- 19 Schlissel, but it involved another witness, a Mr.
- 20 Chernin who basically, like Mr. Schlissel, as
- 21 indicated in our papers in the portion of this
- 22 opinion we've attached, selectively cited to

- 1 opinions of others in his expert testimony.
- 2 Com Ed moved to strike this testimony
- 3 and the motion was granted. And the Commission
- 4 concluded in this case, Mr. Chernin selectively
- 5 recited the opinions of persons that Edison was not
- 6 able to cross examine. And based on that finding,
- 7 the Commission determined that that testimony which
- 8 selectively cited to opinions should be stricken.
- 9 That's exactly what we have here.
- 10 If you look at the portions of the
- 11 testimony that are at issue in our motion, there
- 12 are selective citations to these reports which are
- 13 filled with opinions, opinions like Edison did not
- 14 spend appropriate amounts on this, opinion
- 15 statements of the drafters of the reports that are
- 16 outside of our ability to cross examine. Striking
- 17 Mr. Schlisssel's testimony can be done simply
- 18 through a reliance on this prior Commission order.
- 19 But the Commission precedent regarding
- 20 Schlissel's testimony goes further. He presented
- 21 testimony in two fuel clause cases, when the fuel
- 22 clause was in effect for Edison. And again as I

- 1 indicated a moment ago, the method of his
- 2 testifying in those cases was the same as his
- 3 method is here. There instead of citing to
- 4 consultant's reports regarding the distribution
- 5 system, Mr. Schlissel was testifying on nuclear
- 6 operations.
- 7 And in his testimony he cited
- 8 extensively to reports that had been prepare by the
- 9 Nuclear Regulatory Commission and the institute of
- 10 nuclear power operations, an industry group
- 11 referred to as INPO. As he has done here, Mr.
- 12 Schlissel similarly tried to include the findings
- 13 of those reports as his testimony, and Com Ed moved
- 14 to strike on two occasions, both of the occasions
- 15 where he testified.
- 16 First occasion was the 1994 fuel
- 17 reconciliation case, Docket 95-0119 Karen Caille
- 18 was the examiner in that case, we have attached a
- 19 portion of the transcript in that case where Karen
- 20 Caille ruled and granted Com Ed's motion. And if
- 21 you take a look at that, I'll quote generally.
- 22 She concludes at Lines 9 through 11 on

- 1 Page 217 from the transcript that we've attached,
- 2 these reports are reports that use different
- 3 standards than the standard we use here at the
- 4 Commission to determine prudency. She also states
- 5 that she refers to the use of hindsight in Line 20
- 6 as a basis for striking the testimony.
- 7 So again, these are the same reasons
- 8 that we've raised here, different legal standards
- 9 in the report, use of hindsight which is not
- 10 permissible here, those were reasons Examiner
- 11 Caille used in striking similar testimony by the
- 12 very witness that we have at issue here. Her
- 13 ruling is equally applicable.
- 14 The same result were in Docket 97-0015,
- 15 this was the 1995 fuel reconciliation case, where
- 16 Examiner King was presented with the same type of
- 17 testimony by Mr. Schlissel, relying upon NRC and
- 18 INPO statements, opinion testimony or out of court
- 19 statements. Again Com Ed moved to strike. The
- 20 Commissioners' final order in the case, which is
- 21 attached to our papers as indicated, the hearing
- 22 examiner struck portions of Mr. Schlissel's

- 1 testimony in certain exhibits of CUB containing
- 2 hearsay from the NRC and INPO which were hearsay,
- 3 were based on standards different from prudence,
- 4 involved hindsight and were not connected to any
- 5 specific outage in the proceeding.
- 6 It also indicates there was an
- 7 interlocutory appeal taken from that decision which
- 8 was denied. So we on two occasions, we have
- 9 administrative law judges striking Mr. Schlissel's
- 10 testimony. We have a Commission order striking the
- 11 testimony. And we also have evidence of an
- 12 interlocutory appeal being taken from that decision
- 13 in the '96 fuel reconciliation case and it being
- 14 denied.
- So there is exact precedent with respect
- 16 to what they are trying to do with Schlissel's
- 17 testimony here. And there is precedent which
- 18 indicates the testimony should be stricken.
- 19 I'll briefly refer to the judicial
- 20 decisions that we've cited, which are exactly in
- 21 line and which provide support for the Commission's
- 22 prior decision regarding Mr. Schlissel's testimony.

- 1 The sort of benchmark case in this area regarding
- 2 expert testimony in Illinois is Wilson v. Clark 84,
- 3 Illinois 2d, 186 where the Illinois courts adopted
- 4 the standard and federal rule of evidence 703,
- 5 which states that expert witnesses can rely upon
- 6 out of court statements if it is the type of
- 7 statement reasonably relied upon by experts in the
- 8 particular field in forming opinions or inferences
- 9 upon the subjects, the facts or data.
- 10 Now, the Commission has gone over this
- 11 ground before, and has held in previously striking
- 12 Mr. Schlissel's testimony that the type of hearsay
- 13 at issue here, the type of recitation of out of
- 14 court reports is not something that is reasonably
- 15 done by experts, it is not something that falls
- 16 within the scope of the Rule 703 that was adopted
- 17 by the Wilson v. Clark court.
- 18 The Supreme Court, again, in People v.
- 19 Anderson, another case that we've cited 113
- 20 Illinois 2d Page 1, holding that was directly
- 21 applicable here it says that a trial judge like
- 22 your Honor here of course need not allow an expert

- 1 to recite secondhand information when its probative
- 2 value in explaining the experts opinion pales
- 3 beside the possibly confusion.
- 4 Basically what this rule says is an
- 5 expert can't use materials that the expert relys on
- 6 as a way of circumventing the hearsay rule and
- 7 trying to get all sorts of things into evidence
- 8 that wouldn't come in independently. Secondhand
- 9 information, that's exactly what we have here,
- 10 that's exactly what the testimony of Mr. Schlissel
- 11 does.
- 12 I'll cite briefly to City of Chicago v.
- 13 Anthony another Supreme Court case, 136 Illinois
- 14 2d, 169. And in other holding applicable hearing,
- 15 another rule of law applicable to the case includes
- 16 the information sought to be relied upon by the
- 17 expert, the information may not be permitted to
- 18 come before the jury, the trier of fact here, under
- 19 the guise of a basis for the opinion of the expert.
- That's what's happening here. We have
- 21 hindsight information, we have information used
- 22 incorrectly, not using the applicable legal

- 1 standard, and they are trying to get that before
- 2 the trier of fact under the guise of being support
- 3 for the expert's opinion.
- 4 If you look at Mr. Schlissel's
- 5 testimony, this so-called support for his testimony
- 6 is actually the bulk of what he's trying to get
- 7 into the record. It's pages, upon pages, upon
- 8 pages, his opinion is very briefly stated. That's
- 9 why the testimony has been filed, that's why it
- 10 should be stricken, that's why his testimony has
- 11 been stricken in the past.
- 12 So on those grounds, we would move to
- 13 strike the testimony.
- JUDGE CASEY: Response.
- MR. KAMINSKI: First off, if Com Ed had acted
- 16 timely, as was requested by the ALJ's in the
- 17 beginning of these proceeding, to the prefiling of
- 18 Schlissel's testimony where he refers to the
- 19 Liberty/Vantage reports, they could have either
- 20 first requested the ALJ's to subpoena the authors
- 21 of these reports, which were made for this
- 22 Commission. Or also could have required those

- 1 authors to provide witnesses to explain the
- 2 findings of those reports as was required by the
- 3 Commission in their emergency procurement
- 4 opportunity request.
- 5 They state clearly that those authors
- 6 must make available for a period of two years,
- 7 which we are still within, after completion of
- 8 investigation witnesses who can explain and support
- 9 the investigation, findings and recommendation in
- 10 written testimony, and under cross examination in a
- 11 formal Illinois Commerce Commission proceeding.
- 12 They did not take advantage of that. Rather, they
- 13 waited until eight days before the hearing began,
- 14 is going to begin this this case, to bring this
- 15 forward as a motion to strike. They had the
- 16 opportunity to cross examine, and allowed that to
- 17 pass.
- 18 Secondly, the Liberty and Vantage
- 19 reports are public records. They were responses
- 20 order by the Commission as an investigation of the
- 21 liability problems and outages that occurred in
- 22 1999.

- 1 JUDGE O'CONNELL-DIAZ: Was there any opportunity
- 2 for Com Ed to cross examine the authors of these
- 3 various reports that you are aware of?
- 4 MR. KAMINSKI: There were presentations made
- 5 before the Commission, and Com Ed was given the
- 6 opportunity to make their own presentations
- 7 regarding the findings of those reports. And Com
- 8 Ed did so, as they refer to in their rebuttal
- 9 testimony.
- 10 JUDGE O'CONNELL-DIAZ: These were presentations
- 11 to the Commission, they were not under oath; isn't
- 12 that correct?
- MR. KAMINSKI: I'm unaware if they were under
- 14 oath, but they were proceedings before the
- 15 Commission. These are published on the ICC website
- 16 as the results of Com Ed's investigations into Com
- 17 Ed's difficulties in 1999.
- 18 And even if the Commission finds that
- 19 these are inadmissible on their own, expert
- 20 witnesses are entitled to rely on otherwise
- 21 inadmissible data or evidence that the experts in
- 22 the field ordinarily rely upon in forming their

- 1 opinions.
- Now, in this case, this rate case, this
- 3 is an investigation regarding distribution plant
- 4 expenses. You must look at not only the test year,
- 5 but before, during and after this test year to
- 6 determine whether the expenses were properly -- are
- 7 indicative of a normalized test year, a levelized
- 8 test year, and also to determine whether there was
- 9 a substantial amount of capital used, should we
- 10 say, as in this case.
- 11 Now the reports are evidence of that
- 12 condition. They are offered, they support the
- 13 opinion of Mr. Schlissel that there is a likelihood
- 14 that impudent costs occurred during the test year
- 15 and that the audit -- an audit that he suggests in
- 16 his testimony, both on direct and in rebuttal
- 17 testimony, that an audit is necessary and
- 18 appropriate.
- 19 Regarding the precedent, which I must
- 20 note that there is no star decisis in Commission
- 21 orders, however the precedent that is cited by Com
- 22 Ed, the two cases regarding the full adjustment

- 1 clauses, refer to the limited scope of dealing with
- 2 retroactive billing for a specific period regarding
- 3 commodity costs. These are inherently difficult to
- 4 predict, and therefore the hindsight issue is
- 5 important in that case.
- 6 However, in this case, it is much better
- 7 to look at rate case proceedings, and in those it
- 8 has been done in the past, as I cited in our
- 9 response the Illinois Commerce Commission versus
- 10 Com Ed, Docket 83-0537, 84-0555 consolidated
- 11 addressed audits that were conducted regarding the
- 12 nuclear plant costs.
- 13 Additionally, the Central Illinois Light
- 14 Company versus Illinois Commerce Commission Docket
- 15 94-0040 refers to various surveys and leak reports
- 16 generated prior to the rate case that was involved
- 17 then, regarding the condition of CILCO's natural
- 18 gas distribution system. That is right on point.
- 19 It is analogous to the situation we have here, in
- 20 that we are talking about the analysis of the
- 21 condition of the distribution system prior to the
- 22 test year. And if any precedent is to be allowed

- 1 regarding Commission orders, those are far more
- 2 proper than fuel adjustment clause cases.
- Finally, I would also note that in
- 4 answer to Docket 90-0038, there is a question of
- 5 reliability in those cases. In this case, we are
- 6 talking about a Commission response order report,
- 7 where Com Ed had the opportunity and took the
- 8 opportunity to respond to the findings that were
- 9 found -- that were offered in that report, and
- 10 those reports were made open and public
- 11 presentations before the Commission.
- 12 So the precedent of the FAC, the fuel
- 13 adjustment clause cases, and the the 90-0038, are
- 14 of less persuasive value than the rate cases that I
- 15 cited in my response. I would also note that these
- 16 same reports are referred to in staff testimony and
- 17 no such testimony has been -- no such motion to
- 18 strike has been brought before by Com Ed.
- 19 JUDGE CASEY: Is it the Company's position that
- 20 these type of reports, it would be improper for an
- 21 expert to rely on these types of reports to form an
- 22 opinion?

- 1 It's a narrow question. Not as to
- 2 whether it's a restatement of what is in those
- 3 reports, but that it would be appropriate for an
- 4 expert to rely on those reports to form an opinion.
- 5 MR. FELDMEIER: I have to give you -- I can't
- 6 give you a yes or no answer on that. But what I
- 7 could say is this, what Schlissel has done with
- 8 these reports goes far beyond what an expert is
- 9 permitted to do under Illinois law because this
- 10 isn't a case where Schlissel testifies, I've read
- 11 these two reports and considered them in arriving
- 12 at my opinion and there are other things that I
- 13 have considered and here is my expert opinion.
- 14 Instead, what has been done with these
- 15 reports is page after page of his testimony is a
- 16 recitation of the reports, and the law in Illinois
- 17 that I indicated in my main argument, and that is
- 18 indicated and cited to in our motion, says that is
- 19 what can't be done, you don't bring in secondhand
- 20 information, the way that it's been brought in
- 21 here, under the guise of support for an expert's
- 22 testimony, that is the controlling legal standard.

- 1 MR. JOLLY: If I might respond. I think
- 2 Mr. Feldmeier mischaracterizes Mr. Schlissel's
- 3 testimony. In fact, I think he does use these
- 4 reports to form his opinions. His opinions are in
- 5 response to Com Ed's repeated assertions that none
- 6 of its costs that it incurred during the test year
- 7 or prior to the test year were incurred as a result
- 8 of prior problems that it had had with its
- 9 distribution system.
- 10 He reviewed these reports, and based on
- 11 those reports, he challenges -- he relys on those
- 12 reports to challenge Com Ed's assertions that none
- 13 of those costs are in its rate base or in its
- 14 expenses. And based on that he attacks the
- 15 credibility of Com Ed's statements to that effect.
- And he also recommends that the
- 17 Commission initiate an audit of Com Ed's
- 18 expenditures during its two year -- 1.5 billion
- 19 two-year recovery program that it announced in
- 20 September of 1999 to determine if, in fact, any of
- 21 those expenditures incurred during that period were
- 22 the result of past mismanagement, and whether or

- 1 not they should be recovered and whether they
- 2 should be recovered in delivery service rates.
- JUDGE CASEY: Mr. Jolly, I'm looking through the
- 4 excerpts that were attached to the motion, and I'm
- 5 trying to find the responses by Mr. Schlissel where
- 6 he said, yeah, I reviewed the information and based
- 7 on that information, and based on whatever, my
- 8 opinion is this. Now, maybe it's because it's been
- 9 excerpted, and I haven't seen the entire testimony.
- 10 MR. JOLLY: If I could respond.
- 11 JUDGE CASEY: The problem is we don't want a
- 12 regurgitation of someone else's report if that's
- 13 your opinion. Opinion testimony is supposed to be
- 14 your opinion and not a restatement of somebody
- 15 else's.
- MS. DOSS: Your Honor, while he's looking for
- 17 those excerpts, I agree that Mr. Schlissel is an
- 18 expert and able to make his own independent
- 19 opinion, which he has done in testimony. But with
- 20 respect to the reports themselves, I think it's
- 21 important not to -- for the Commission not to be
- 22 misguided in the sense of thinking that these

- 1 reports have simply secondhand information. Mr.
- 2 Feldmeier tries to diminish what these actually
- 3 are.
- 4 These reports are public records. The
- 5 Commission hired these consultants as their staff.
- 6 Normally we're accustom to in-house staff, and so
- 7 we are very, you know, comfortable with that. But
- 8 now that the Commission actually chose an outside
- 9 consulting firm, Com Ed is saying well, no way,
- 10 these aren't consultants, these are just secondh and
- 11 people who came in and gave a report.
- 12 In addition, the Commission also adopted
- 13 these reports. The motion was made by the
- 14 chairman, and it was an actual adoption of these
- 15 reports and findings to the point that it was a
- 16 public record. None of the Supreme Court rules,
- 17 public rules are evidence and so there even if,
- 18 although I say Schlissel did give an independent
- 19 opinion, even assuming that he didn't, these
- 20 reports are public record and the factual findings
- 21 in those records are, as public records, are
- 22 admissible under the Illinois Supreme Court rules.

- 1 JUDGE CASEY: Mr. Jolly was looking for some
- 2 excerpts.
- MR. JOLLY: And looking at Mr. Schlissel's direct
- 4 testimony he discusses that he is unable to
- 5 quantify the L and M expenditures that could have
- 6 been avoided, because he is a respondent in
- 7 discovery. And he goes on in his rebuttal
- 8 testimony recommending that an audit be conducted
- 9 because he is not able -- in his opinion, he
- 10 cannot, nor can the Commission determine what costs
- 11 that are included in Edison's proposed revenue
- 12 requirement are the result of past mismanagement.
- 13 And those citations to the Liberty and
- 14 Vantage reports are not being used to say they were
- 15 imprudent as Vantage and Liberty suggests, rather
- 16 that they call into question Edison's repeated
- 17 assertion that none of the costs that are included
- 18 in the revenue requirement are the result of past
- 19 mismanagement, as Mr. DeCampli and others have
- 20 testified.
- 21 He is relying on those reports to
- 22 challenge those statements made in Edison's

- 1 testimony which they've also made in discovery
- 2 responses.
- 3 MR. FELDMEIER: If I could respond. There are a
- 4 number of arguments, if I could address them
- 5 individually. I think Mr. Jolly, in referring to
- 6 Mr. Schlissel's testimony really kind of summed
- 7 things up correctly. He said Mr. Schlissel has
- 8 read these reports, and these are the basis of his
- 9 opinion. That is not expert testimony, that is the
- 10 recitation of hearsay and that's the basis of our
- 11 motion. There is no expert analysis here, there is
- 12 simply I read this and this is what it says.
- 13 That was the basis of why we moved to
- 14 strike Schlissel's testimony in the past and were
- 15 successful and that's the basis for why this
- 16 testimony shouldn't come in under Illinois law.
- Ms. Doss indicated that these are public
- 18 records and there is a public records exception to
- 19 the hearsay rule. In the response to our motion
- 20 that was received yesterday afternoon, they have a
- 21 section which says these are public records. They
- 22 don't talk about a public record exception to the

- 1 hearsay rule. They cite to the administrative
- 2 notice section of the Commission's rules and a
- 3 section which says the Commission can take
- 4 administrative notice of generally recognized or
- 5 technical facts within the specialized knowledge of
- 6 the Commission.
- 7 The type of reports these Liberty and
- 8 Vantage reports are are not basically the stuff
- 9 that administrative notice is made of. Scientific
- 10 or technical knowledge would be things, like in the
- 11 fuel adjustment case, certain workings of a power
- 12 generation facility that have come up in prior
- 13 cases and the Commission can take notice of the
- 14 technical issues involved if it's been down that
- 15 road before. The same thing with the operation of
- 16 the distribution system.
- 17 Here we are talking about specific
- 18 factual findings with respect to events in which,
- 19 in some cases, took place over a long period of
- 20 time. That is not the type of thing this rule
- 21 would contemplate administrative notice being taken
- 22 of. If you take a look at the type of things that

- 1 the Commission could take an administrative notice
- 2 of, it's things like rules, regulation, written
- 3 policies of governmental body, licenses and
- 4 certificates. Pretty mundane stuff. Not the type
- 5 of things, the detail type of report that was
- 6 undertaken here.
- 7 Mr. Kaminski indicated as his initial
- 8 argument that Com Ed didn't act timely here, and
- 9 what Com Ed should have done when it received this
- 10 testimony is gone out and started issuing subpoenas
- 11 and undertaking it as its burden bringing these
- 12 people before the Court so proper cost examination
- 13 could occur. That is simply not the law in
- 14 Illinois.
- 15 If an expert relys upon something and it
- 16 is improper, the person who is on the receiving end
- 17 of that testimony is not required to hunt down the
- 18 source of the statements, bring them before the
- 19 tribunal so they can cross examine them. Frankly,
- 20 it is an unworkable standard.
- 21 You asked the question of whether cross
- 22 examination could occur, and Mr. Kaminski referred

- 1 to certain meetings, and I will take him at his
- 2 word there was an opportunity to question, but
- 3 there is no record, there was no cross examination,
- 4 we don't have any record of what occurred, so
- 5 that's irrelevant to whether there has been the
- 6 ability to cross examine the type of material they
- 7 seek to introduce into the record in this case.
- Finally, Mr. Kaminski said there is no
- 9 star decisis at the Commission, you are not bound
- 10 by this. We are not saying that you are bound by
- 11 star decisis here, you have no room to assess this
- 12 on your own, we just mean you just follow these
- 13 prior decisions because they are correct and they
- 14 showed what other hearing examiners at that time
- 15 have done when faced with the identical issues. We
- 16 think that their ruling should be followed here.
- 17 MR. JOLLY: I think first of all Mr. Feldmeier
- 18 mischaracterized something I said. I think that
- 19 the reports that Mr. Schlissel quotes from form the
- 20 basis of his opinion. And his opinion is based
- 21 upon what -- you have to consider what the legal
- 22 context of this case is. Legal context of this

- 1 case is Edison bears the burden of proving that
- 2 it's proposed rates, and each component of those
- 3 rates, are just and reasonable.
- 4 And by looking at these reports,
- 5 Mr. Schlissel forms an opinion by saying these
- 6 reports, as well as Com Ed's own internal reports,
- 7 raise questions as to whether or not the costs that
- 8 Edison seeks to include in its rates in this
- 9 proceeding are just and reasonable.
- 10 He's not relying on -- he's not saying
- 11 that the findings that are made by -- in the
- 12 Vantage and Liberty reports are -- he's not
- 13 offering those for the truth of the matter
- 14 asserted, all he's saying is those call into
- 15 question whether or not Edison is meeting its
- 16 burden of proof whether or not they can demonstrate
- 17 that the costs they are seeking to include are in
- 18 fact just and reasonable and are not based on costs
- 19 that were incurred due to past mismanagement, or
- 20 imprudent actions on its part.
- JUDGE CASEY: Okay, Mr. Jolly, in either his
- 22 direct or rebuttal, you seem to wrap up what you

- 1 think his opinion is, either in his direct or
- 2 rebuttal, does he do that?
- 3 MR. JOLLY: Yes.
- 4 JUDGE CASEY: Could you please direct that to us?
- 5 MR. JOLLY: On Page 19 of his direct testimony.
- 6 JUDGE CASEY: Page 19 of the direct.
- 7 MR. JOLLY: Correct, the last page, or actually
- 8 next-to-last page starting at Line 12, there is the
- 9 question, Have you been able to quantify the
- 10 distribution L and M expenditures that should be
- 11 disallowed?
- 12 And he has referred to the fact that he
- 13 hasn't received an analysis from the company, any
- 14 analysis showing a breakdown of the costs that they
- 15 incurred during its two-year recovery program to
- 16 determine whether costs that were incurred were
- 17 based on imprudent actions.
- 18 His references to the reports are
- 19 merely -- to the Liberty and Vantage reports are
- 20 there to out point that these things have been
- 21 called into question and we asked them in discovery
- 22 repeatedly for breaking down these costs. And

- 1 Edison said they deny having the information, they
- 2 don't have it broken down, and they couldn't
- 3 provide the information.
- 4 So based on what's said in the --
- 5 relying on what's said in the Liberty and Vantage
- 6 reports, plus Edison' refusal to provide the
- 7 information requested in discovery, he's saying we
- 8 don't know, we don't know what should be included
- 9 or excluded and as a result that Edison doesn't
- 10 meet its burden of proof.
- 11 And he goes on in his rebuttal testimony
- 12 at Page 8 to suggest that the Commission conduct an
- 13 audit. So at Lines 9 and 10 a detailed audit is
- 14 needed to examine the reasonableness of the
- 15 distribution plan expenditures that Com Ed is
- 16 seeking to add to rate base in this proceeding, for
- 17 those very same reasons. Edison hasn't provided
- 18 sufficient detail and Edison's own internal
- 19 studies, plus the studies commissioned by the
- 20 Commission call into question whether the costs
- 21 they are trying to include in its rates are
- 22 properly included.

- 1 JUDGE CASEY: Does anybody have anything in
- 2 addition? Good ahead, Mr. Feldmeier.
- 3 MR. FELDMEIER: Mr. Jolly has pointed to certain
- 4 portions on Page 19 and to some of the direct where
- 5 it is summed. If you look at the testimony as a
- 6 whole, as you pointed out, what we are moving to
- 7 strike is not that, we are moving to strike really
- 8 the bulk of what is attempted to be interjected
- 9 into the record here, and that's the page upon page
- 10 of recitation about out of court statements.
- 11 That recitation is not necessary in that
- 12 detail for the opinion that has been arrived at.
- 13 We are not moving to strike the opinion, just the
- 14 improper predicate.
- 15 Also Mr. Jolly indicated that he's
- 16 relied upon Com Ed's internal reports. We haven't
- 17 moved to strike those because that's not hearsay.
- 18 That's something that we stated that's an
- 19 admission. And we have the ability to deal with
- 20 that, we can talk to the person who made that
- 21 statement and deal with it. But with these other
- 22 out of court statements we don't have that ability,

- 1 and it's not proper for all of that information to
- 2 come in the record when we have no means of cross
- 3 examining with respect to it.
- 4 MS. DOSS: And again, Cook County reasserts its
- 5 objection to that in the sense that this is public
- 6 record, it is not hearsay, secondhand information
- 7 and as such under the Supreme Court Rules, Supreme
- 8 Court Rules 216, any public records of factual
- 9 conclusions are evidence and deemed properly
- 10 evidence and Com Ed has an opportunity to cross
- 11 examine, as Mr. Kaminski pointed out. They could
- 12 have called Vantage and Liberty and actually cross
- 13 examined them if need be.
- 14 So Cook County believes this motion is
- 15 frivolous. Com Ed doesn't like the results of
- 16 Vantage and Liberty report because it's not their
- 17 own report. They are rejecting the fact that the
- 18 Commission chose Vantage and Liberty to do their
- 19 investigation, and they are simply an outreach of
- 20 their staff.
- 21 They didn't have in-house staff to do
- 22 it, so they actually hired, bid it, contract it

- 1 out, bid it and chose Vantage and Liberty to be
- 2 their staff and now Com Ed wants everyone to
- 3 overlook that fact and try to pretend that this is
- 4 simply hearsay or secondhand information and that
- 5 we can't really rely on it, when the Commission has
- 6 adopted these reports and have looked into it, and
- 7 documented the findings of the reports.
- 8 So I think we have just wasteed like 30
- 9 minutes arguing over something that should have
- 10 never been done. And also, I would note that this
- 11 motion was filed October 24th, we had to respond,
- 12 we filed a written response October 30th. So if
- 13 there are some cites that are not in there, I don't
- 14 think that should be held against governmental
- 15 parties because we did the best we could. We are
- 16 arguing October 31st at 10:00 o'clock on this
- 17 motion that shouldn't have been filed in the first
- 18 place.
- 19 JUDGE CASEY: Mr. Jolly, Mr. Kaminski, does
- 20 anybody intend to try to file either the Vantage
- 21 consulting or the Liberty consulting reports? It's
- 22 not evidence, despite Mrs. Doss' assertion that

- 1 it's evidence because it's a public record. It's
- 2 not evidence unless it's admitted. Is someone
- 3 seeking its admission?
- 4 MR. JOLLY: If your ruling would somehow --
- 5 JUDGE CASEY: If you are looking for us to tip
- 6 our hand, no.
- 7 MR. JOLLY: If you desire, we certainly could
- 8 submit those reports. But if I could just respond
- 9 quickly to something Mr. Feldmeier said, he
- 10 indicated that he had a problem with the level of
- 11 detail that's cited in Mr. Schlissel's testimony.
- 12 To me it seems to me he's not questioning the
- 13 concept, it's the amount of detail, what he goes
- 14 into. Maybe a little bit, maybe a few quotations
- 15 would be okay, but's the amount of quotations.
- I get the feeling that -- these are
- 17 properly relied on, it's a reliable report in that
- 18 it's a Commission response order report that the
- 19 Commission adopted. It is unlike the prior cases
- 20 in which the CUB witness in the two fuel adjustment
- 21 clause cases and the City witness in the lease cost
- 22 planning case relied on reports that the Commission

- 1 had nothing to do with. These are inherently
- 2 different, these are proper to rely upon.
- 3 He is relying on these reports to come
- 4 to a conclusion, and I think in his statements
- 5 Mr. Feldmeier admits that is a proper thing to do,
- 6 but Edison is embarrassed by what's in those
- 7 reports and so as a result they are not happy he is
- 8 reciteing page after page of the conclusions that
- 9 are reached in the reports.
- 10 JUDGE O'CONNELL-DIAZ: Mr. Kaminski earlier when
- 11 we first started the arguments, and I think it was
- 12 in your argument, you suggested that the
- 13 consultants would be available for two years after
- 14 the -- could you restate that for the record,
- 15 please?
- 16 MR. KAMINSKI: Certainly, and I'm referring
- 17 to -- and I have copies if you would like to look
- 18 at these.
- 19 MR. JOLLY: It's Commission's RFP for consultants
- 20 to conduct. The results included in the RFP was a
- 21 requirement that the respondents make available for
- 22 two years after the final report witnesses to be

- 1 available for cross examination in a formal ICC
- 2 proceeding.
- 3 MR. KAMINSKI: It's on the third page of the
- 4 handout that I've given you, under G states that
- 5 those that bid for this opportunity must make
- 6 available for a period of two years after
- 7 completion of the investigation a witness or
- 8 witnesses who can explain and support the
- 9 investigation, findings, and recommendations in
- 10 written testimony, and under cross examination in a
- 11 formal Illinois Commerce Commission proceeding.
- 12 I would also note that Mr. Feldmeier
- 13 referred to the fact that there was no record of or
- 14 did not know if there was a record regarding
- 15 presentation to the Commission. However, there is
- 16 available on the website the transcript of the open
- 17 meetings, both the day that the Vantage authors
- 18 made their presentation, and I would note the
- 19 second day, where Com Ed replied in 100 pages of
- 20 transcript and were questioned by the Commission
- 21 regarding the findings.
- 22 Also on top of that, as I stated

- 1 earlier, Com Ed in its rebuttal testimony refers to
- 2 their replies to the Liberty report.
- 3 MR. FELDMEIER: If I could respond to one point,
- 4 and that has to do with the emergency procurement
- 5 opportunity. After the portion that
- 6 Mr. Kaminski quoted about making these individuals
- 7 available for cross and their written testimony in
- 8 an Illinois Commerce Commission proceeding, that
- 9 paragraph continues to state that these people will
- 10 be made available and can provide expert assistance
- 11 to the Commission or its staff and Commission
- 12 counsel in all matters relating to such proceeding
- 13 including discovery and the preparation of
- 14 pleadings, briefs and other legal documents.
- What this provision contemplates is if
- 16 staff calls upon these entities who bid on this to
- 17 come in and work on a case, they would be obligated
- 18 to do so. It doesn't obligate them to basically
- 19 stand ready at all times if anybody should call to
- 20 present witnesses and to prepare written testimony
- 21 and stand ready for cross.
- I take it, and I've just received this

- 1 document, but this contemplates a contract with the
- 2 Commission, with the staff of the Commission, that
- 3 would be the party that would have the ability to
- 4 call in and require these things to be done. I
- 5 don't think Edison could get on the phone and say
- 6 we are relying on this provision to a bidding
- 7 contract that we are not a party to, you now need
- 8 to come in and make yourself available. We
- 9 couldn't do that. That is not a reason for
- 10 allowing them to rely on this.
- MS. DOSS: But that supports my argument that
- 12 they are staff.
- 13 MR. JOLLY: And I guess if Edison really desired
- 14 to cross examine these people, they could have
- 15 invoked the subpoena power of the Commission, and
- 16 Mr. Feldmeier's earlier suggestion that somehow it
- 17 would have been improper for Edison to do that,
- 18 assumes that Mr. Schlissel's testimony on these
- 19 points is inappropriate and we don't agree with
- 20 that.
- 21 So his statement as to Illinois law that
- 22 somehow the burden is not on them because they have

- 1 no burden to ask for a subpoena and to inquire
- 2 about inappropriate testimony, we disagree with his
- 3 characterization of that testimony as
- 4 inappropriate.
- 5 JUDGE CASEY: All right, we will take this under
- 6 advisement. A concern, though, is obviously you
- 7 feel strongly, this is important information. And
- 8 we're just trying to figure out why it's not being
- 9 offered, if it's that important.
- 10 We will take a look at the testimony
- 11 that was submitted, we will consider the arguments
- 12 that have been made by both the proponent and
- 13 respondents, and we will issue a ruling on it.
- MS. DOSS: Your Honor, we didn't say that we
- 15 wouldn't offer it, we can offer those reports into
- 16 evidence.
- JUDGE CASEY: No one has offered them as of yet.
- 18 JUDGE O'CONNELL-DIAZ: Are there any motions in
- 19 limine that we need to deal with or anything which
- 20 is also what we were to deal with today? Are there
- 21 other motions or any other matters?
- 22 MS. FONNER: The only matter is on Friday your

- 1 Honor had directed that one copy of all test imony
- 2 that has been filed by e-docket as well as one copy
- 3 of all corrected testimony be provided to the
- 4 administrative law judges for marking. And we have
- 5 with us today the documents relating to all
- 6 Commonwealth Edison witnesses that will be
- 7 testifying tomorrow.
- 8 I will need to supplement this with the
- 9 affidavit that is to accompany Ms. Leitzell and
- 10 Mr. Meehan's testimony, but we have one hard-copy
- 11 for your Honor at this time.
- JUDGE O'CONNELL-DIAZ: Is there also the errata
- 13 for that as well?
- MS. FONNER: The errata itself is not. It is my
- 15 understanding that we were simply filing the
- 16 original.
- 17 JUDGE CASEY: We need the errata as well.
- 18 MS. FONNER: All right. We will provide the
- 19 errata.
- 20 MR. FEIN: We, as well, have our testimony here
- 21 for presentation. Based upon your ruling striking
- 22 some lines of the rebuttal testimony today, I would

- 1 be prepared to line through it, your Honor,.
- 2 MR. NEFF: I just have a mechanical question if a
- 3 word has to change or a number has to change, do
- 4 your Honors prefer that the testimony be reword
- 5 processed or that the changes be made by hand so
- 6 they are visible on the testimony itself in written
- 7 form?
- 8 JUDGE CASEY: If the testimony that is being
- 9 sought to be admitted is different from what's been
- 10 e-docket filed, then we need the old three copies,
- 11 if there is any changes.
- MR. NEFF: And you want them corrected and -- the
- 13 --
- 14 JUDGE CASEY: The corrected version.
- 15 MR. NEFF: But I'm just trying to clarify if you
- 16 want them corrected via word processing if changes
- 17 are small or just by handwritten changes if it's
- 18 small.
- 19 JUDGE CASEY: If they are small, but we still
- 20 need the three copies because it's something
- 21 different than what is filed.
- MR. NEFF: That's what I was concerned about,

- 1 thank you, your Honor.
- JUDGE CASEY: As far as -- Mr. Fein.
- 3 MR. FEIN: Just because of that long discussion
- 4 we had on Friday went all around, I have an
- 5 original copy of what was filed as well as the
- 6 corrected copy, as well as the errata.
- 7 JUDGE CASEY: And those were -- all three were
- 8 sent to the clerk via e-docket?
- 9 MR. FEIN: That's correct. Is that what the
- 10 clerk needs, basically those three pieces?
- 11 JUDGE CASEY: Yes, sir.
- MR. FEIN: And it's because there is a
- 13 confidential version, too.
- 14 JUDGE CASEY: With respect to future filings or
- 15 submissions for stamping, at 3:00 o'clock each
- 16 afternoon outside the hearing room will be a table
- 17 and a clerk to take your testimony for the next
- 18 day. Then this matter is continued to 9:30
- 19 tomorrow morning.
- 20 (Whereupon the above-entitled
- 21 matter was continued to November 1,
- 22 2001 at 9:30 a.m.)
